ASCOLIA

We invest our energy in searching innovative solutions by thinking differently.

The existing is challenged by designing ergonomic, user friendly and ecological equipment.

Our main goal is to produce fantastic hospitality products.

Be our guest and share our passion!

DID YOU KNOW?

Light as air, fluttering with ease, harmonious and efficient, a necessity to its environment, the Ascolia is a butterfly that originates from South America.

What a wonderful source of inspiration for our designers ...

This catalogue has been carefully compiled, just like each Ascolia product. The Ascolia Team wishes you a pleasant read.

At your service,
The Ascolia Team

OUR COMMITMENTS

1 TO LISTEN

Ascolia wishes to be available for you and proposes solutions that correspond to your needs and processes.

2 INNOVATION AND FLEXIBILITY

Ascolia uses modern materials and technologies and is constantly searching ways to improve manoeuvrability, ergonomics and functionality. With every creation we challenge the existing by thinking differently. We strive to improve your daily tasks with functional and ergonomic solutions. Please be our guest!

3 DESIGN AND ERGONOMICS

The design of your establishment is the result of a careful study with each detail having received particular attention. Mobile furniture, often seen by your customers, must be in perfect harmony with its surroundings. Pure and sober lines are the visible witnesses of this. The user will appreciate the comfort and manoeuvrability.

4 COLLABORATION

We believe in the power of our team, where everybody takes an active role in the success of the finished project.

OUR COMMITMENTS

5 COMPETENCES AND QUALITY

All of our products are assembled and controlled in our factories before expedition. The affixing of our label at the end of the production line is a warrant of quality. Ascolia is based on almost a century's worth of traditional quality and know-how. Its team members are proud to export their products to over 80 countries.

6 DURABILITY

The constituent components of our furniture are carefully selected, and their manufacturing is respectful of the environment. They are all recyclable.

7 NETWORK

Ascolia is present in Belgium, France, Spain and Dubai but is also represented by a widespread network of agents located in many European and around the world.

MATERIALS AND CHARACTERISTICS

1 STRUCTURE IN ANODISED ALUMINIUM

Aluminium is a noble, light and resistant material. Anodising it gives it an excellent resistance to scratches, chemical agents and saline corrosion. It is used in particular in the food industry and aeronautics. Aluminium is 3 times lighter than steel and is indefinitely recyclable.

2 COMPACT PANEL PARTITION WALLS

These finishing panels offer a multitude of choices when it comes to color and very life-like wood aspects. They resist to shocks, scratches, humidity and are very light.

3 WHEELS

As essential elements to your comfort, the wheels used are of high quality. They are equipped with precision ball bearings that optimise the manoeuvrability. The tyre of the wheel is adapted to the type of floor in your establishment.

4 MAINTENANCE

The materials chosen are selected to guarantee an easy maintenance and to be resistant to mainstream detergents. The perfectly round angles and the absence of sharp edges facilitate and diminish maintenance.

HOUSEKEEPING

You require a room service that is discrete, tidy and efficient.

By listening to your needs, Ascolia has developed a functional, easy to handle and ergonomic range of housekeeping trolleys.

A very wide range to cater for all your needs.

Multiple storage options, optimisation of space, quality of the finish, each detail has been the subject of careful study focusing on the comfort of the user.

TRADITIONAL RANGE

Atlas 520 - 650 - 800 - 1000

Housekeeping trolley

Matching user friendliness with aesthetics: the Atlas

Capacity: 4 to 10 rooms

Standard equipment:

HOUSEKEEPING

La Malle

EXCLUSIVE RANGE

Meet the great travellers of the early 20th century whilst Ascolia makes you rediscover the trunk concept and its symbolism.

Thanks to its compact dimensions La malle is easily taken into the room, leaving corridors free and therefore enabling room service with closed doors.

Do not be afraid to leave it in your corridors; passers-by will be delighted by its 5 star aesthetics.

Its manoeuvrability and ergonomics make it the ideal companion for your chamber maids.

EXCLUSIVE RANGE

Gulliver 800

When room-service happens unnoticed in the traveller's eyes...

Capacity: 2 to 3 rooms

Standard equipment

- Anodised aluminium frame
